BECOME A MEMBER! HELP SAVE EBHEY'S RESERVE AND KEEP IT HEALTHY & SAFE FOR ALL OF US!

WE NEED YOU to help us convince the Navy that the landing exercises it has been conducting at the Coupeville OLF are not appropriate in the Reserve and are damaging to the health and safety of the citizens of Central Whidbey and surrounding areas. Making matters worse than in the past, the Navy has been transitioning aircraft to EA-18G "Growlers" at NAS Whidbey Island. These jets are much louder and noisier than previous aircraft and more damaging to the residents, tourists, farm animals and wildlife of Central Whidbey. The low level flights directly over our fields, farms, homes and businesses are making our lives intolerable. Now the Navy wants to relocate even more squadrons of these jets to Whidbey Island from other communities around the country because of noise complaints elsewhere. Enough is enough! The OLF is a World War II era airstrip never intended for and which doesn't even meet the Navy's own regulations for this type of training. It is time for the OLF to be retired.
